Summary of Experience:

Mr. Smith has a wide scope of work experience in the construction industry including:

- Programming
- Strategic Planning
- Site analysis and selection
- Preliminary design development
- Preparation of construction documents
- Coordination of production drawings with civil, structural, mechanical and electrical engineers
- Periodic reporting to the Owner/User regarding the status of projects
- Consulting on selection of materials and products incorporated into designs

In addition to responsibilities as President of Evan Lloyd Associates, Mr. Smith manages business development, public relations, financial management, construction administration, contract negotiations, and all other client/architect interactions through final closeout of projects.
